Control and Cybernetics

vol. **40** (2011) No. 1

CONTENTS

In Memory of Lothar von Wolfersdorf 3

A. KRAKOWIAK:
Boundary control of retarded parabolic systems 9

M. SUN and D. FU:
Robust H_∞ control for uncertain neutral time-delay systems with discrete and distributed delays 25

T. KACZOREK:
Pointwise completeness and pointwise degeneracy of 2D standard and positive Fornasini-Marchesini models with state-feedbacks 39

Y.-J. SUN:
A simple criterion for the global exponential stability of uncertain T-S fuzzy singularly perturbed discrete-time systems 59

J. DUDA:
Lyapunov functional for a linear system with both lumped and distributed delay 73

P. BURAI, A. HÁZY and T. JUHÁSZ:
On approximately Breckner s-convex functions 91

P. KULCZYCKI and P.A. KOWALSKI:
Bayes classification of imprecise information of interval type 101

W. PIETRUSZKIEWICZ, M. TWARDOCHLEB and M. ROSZKOWSKI:
Hybrid approach to supporting decision making processes in companies 125

M. BORAWSKI: 145
Automatic north-wise alignment of sector sonar image

P. LIU and Y. WANG: 163
A multiple attribute group decision making method based on generalized interval-valued trapezoidal fuzzy numbers
