
CONTENTS

**PAPERS FROM THE INTERNATIONAL CONFERENCE ON "TRANSITION
TO ADVANCED MARKET ECONOMIES"**

Z. CZERWIŃSKI, W. JUREK, E. PANEK	9
A medium-term model of Polish economy. An approach to transition problems	
L. KLUKOWSKI	29
Time series forecasting on the basis of Markovian piecewise linear trend models	
S. STORØY	45
A method for improving weights in column aggregated linear programs	
M. CHUDY	55
Cost characteristics of system service with input controlled by Markov chain	
T. NOWICKI	63
Optimal periodic buffer exhaustion strategy	
R. ANTKIEWICZ, T. NOWICKI	71
A computer memory sharing problem	

CONTENTS

IN MEMORIAM PROFESSOR EDMUND LIPÍŃSKI

E. KAÇKI	81
Some remarks on the school of Edmund Lipiński (1922–1990)	
S. GUSZKOWSKA	85
Description of a subset of Polish natural language: a mathematical model	
J. RATYŃSKA	107
Mathematical model of natural language phrase generation	
W. HOMENDA	113
An experiment in computer control of the learning process	
J. WOJUTYŃSKI	123
Automatic analysis of spatial electrical circuits with graph theory
