Control and Cybernetics

vol. **24** (1995) No. 4

CONTENTS

J.W. OWSIŃSKI 391
Clustering - modelling, capacities, limits, applications

YU. KHARIN, E. ZHUK 399
Optimal clustering under dependence of class numbers

K. JAJUGA 409
Optimization in fuzzy clustering

S. MIYAMOTO, Y. AGUSTA 421
An efficient algorithm for ℓ_1 fuzzy c-means and its termination

G. GOVAERT 437
Simultaneous clustering of rows and columns

P. KADŁUCZKA, K. WALA 459
Tabu search and genetic algorithms for the generalized graph partitioning problem

J.S. CHIPMAN & P. WINKER 477
Optimal industrial classification by threshold accepting

T. GAFNER 495
Dynamic Programming: A valuable algorithm for optimization approaches in clustering?

PH. LEHERT, CH. DUMORTIER 505
Critical percolation properties to prove existence of $O(n)$ expected time single linkage clustering algorithm at a predetermined threshold

E. KOVÁCS, A. SUGÁR 513
Multidimensional scaling for comparison of dendrograms
