
CONTENTS

Table of contents	133
R.P. SRIVASTAVA	135
Audit decisions using belief functions: a review	
P. DESTUYNDER and A. SAIDI	161
Smart materials and flexible structures	
G. GAMBARELLI and P. PIANA	207
The Gulf War economic game	
H. GÓRECKI	215
Trade-off between energy and entropy of information	
R. GABASOV, F.M. KIRILLOVA, S.V. PRISCHEPOVA	227
Optimal controller for discrete systems with indeterminate perturbations	
L. WANG	241
A new approach to strict positive realness of interval transfer functions	
K. EPPLER and A. UNGER	249
Boundary control of semilinear elliptic equations – existence of optimal solutions	
F.E. PETRY	261
Architectural support issues for fuzzy databases	
S. DENIZIAK and K. SAPIECHA	271
A new method of fast fault grading
