
CONTENTS

Table of contents	499
SUNG-BAE CHO:	501
Preface: Control with softcomputing	
P.B. PETROVIĆ and V.R. MILAČIĆ:	503
An adaptive fuzzy network for control of manipulating robot dynamic behavior	
K. PAL and N.R. PAL:	521
Learning of rule importance for fuzzy controllers to deal with inconsistent rules and for rule elimination	
CHUL-HWAN JUNG, KEE-CHOON KWON:	545
A fuzzy controller with a real-time tuning algorithm and its application to a steam generator water level control	
T. HASEGAWA and T. FURUHASHI:	565
Stability analysis of fuzzy control systems simplified as a discrete system	
SUNG-BAE CHO and SEUNG-IK LEE:	579
Behavior analysis of genetic fuzzy controller for an autonomous robot	
N. KASABOV, J. KIM, and R. KOZMA:	593
A fuzzy neural network for knowledge acquisition in complex time series	
Y.-H. PARK, G.-T. PARK:	613
Design of a robust adaptive fuzzy controller globally stabilizing the multi-input nonlinear system with state-dependent uncertainty
