<i>Preface</i>	3
<i>Contents</i>	7
D. AUGUSTIN and H. MAURER: Second order sufficient conditions and sensitivity analysis for optimal multiprocess control problems	11
J. WIK, J. KORONACKI and J. MIELNICZUK: Testing for a difference between conditional variance functions of nonlinear time series	33
A. FERRANTE, W. KRAJEWSKI, A. LEPSCHY, U. VIARO: Remarks on the steady-state accuracy of a feedback control system	51
W. FINDEISEN: Hierarchical control structures	69
R. GESSING, A. CZORNIK: On descriptor systems and related linear quadratic problem	79
F. GIANNESI and A. A. KHAN: Regularization of non-coercive quasi variational inequalities	91
H. GRECKI: An electric network chain with feedbacks	111
P. GRZEGORZEWSKI and O. HRYNIEWICZ: Soft methods in statistical quality control	119
T. KACZOREK: Reachability and controllability of 2D positive linear systems with	141

state feedbacks	
J. KLAMKA: Schauder's fixed-point theorem in nonlinear controllability problems	153
R. KULIKOWSKI: Optimization of survival strategy by application of safety dependent utility model	167
I. LASIECKA: Uniform stabilization of the quasi-linear Kirchhoff wave equation with a nonlinear boundary feedback	179
M. LIBURA: Quality of solutions for perturbed combinatorial optimization problems	199
M. LUCERTINI, F. NICOLÒ and S. SMRIGLIO: Assignment and sequencing of parts to autonomous workstations	221
K. MALANOWSKI, F. TRÖLTZSCH: Lipschitz stability of solutions to parametric optimal control for elliptic equations	237
K. MALINOWSKI: Optimization of operative decisions; computer analysis	257
F. MARTINELLI, S. NICOSIA and P. VALIGI: Dynamic control of a class of discrete event systems using a state reconstruction algorithm	275
W. MITKOWSKI: Remarks on stability of positive linear systems	295
A. MYŚLIŃSKI and A. ŻOCHOWSKI: Fictitious domain approach for numerical solution of elliptic problems	305
A. NIEDERLIŃSKI: Declarativity in modelling and problem solving	325
I. PAWŁOW: Three-dimensional model of thermomechanical evolution of shape	341

memory materials

- S. ROLEWICZ: 367  
On  $\alpha(\cdot)$ -paraconvex and strongly  $\alpha(\cdot)$ -paraconvex functions
- R. SŁOWIŃSKI, J. STEFANOWSKI, S. GRECO, B. MATARAZZO: 379  
Rough set based processing of inconsistent information in decision analysis
- A. WERYŃSKI, Z. NAHORSKI, B. ANGELIN, L. BERGLUND, M. ERIKSSON: 405  
Kinetic analysis of LDL apoB transport and metabolism in non-steady states
- A.P. WIERZBICKI: 427  
Parallel approaches to parametric optimization and the convergence of interactive decision support
