I. CHRYSOVERGHI, J. COLETOS, B. KOKKINIS:	385
Approximate relaxed descent method for optimal control problems	
A. YASSINE, N. ALAA, A. ELHILALI ALAOU:	405
Convergence of Toland's critical points for sequences of D.C. functions and application to the resolution of semilinear elliptic problems	
T. KOBAYASHI:	419
Adaptive stabilization of undamped flexible structures	
T. ANTCHAK:	431
A Sufficient condition for optimality in nondifferentiable invex programming	
S. LAHIRI:	439
The top cycle and uncovered solutions for weak tournaments	
M. MAZURKIEWICZ, J. W. MERCIK, W. DOBROWOLSKI:	451
Verification of ideological classifications – a statistical approach	
Y. UEMURA:	465
Application of normal possibility decision rule to silence	
 <i>Book review</i>	
A. Myśliński:	473
Nonlinear and Robust Control of PDE systems (by P.D. Christofides)	

*Software review*
