

Control and Cybernetics

vol. **37** (2008) No. 2

PREFACE

This issue contains a selection of papers presented at the 23rd IFIP TC7 Conference on *System Modelling and Optimization*, held in Cracow on July 23-27, 2007. Most, but not all of the papers were presented in the framework of the invited session on "*Stability, Sensitivity and Error Analysis for Optimal Control Problems*", which was organized by us. Another selection of papers, presented in the same session and devoted to numerical analysis, will appear in a special issue of the journal "*Computing Optimization and Applications*". All papers in the present issue of "*Control and Cybernetics*" have passed the thorough reviewing process standard for this journal.
