

## **Control and Cybernetics**

vol. **42** (2013) No. 2

### **On this Special Issue**

The present volume, being a special issue of the journal *Control & Cybernetics*, contains selected articles, based on the talks given at the 5th Podlasie Conference on Mathematics, which was held at the Białystok University of Technology, Białystok, Poland, on 25-28 June 2013. The Conference was organized by the Polish Society on Mathematics, Białystok branch, and by the Faculty of Computer Science of Białystok University of Technology, and was sponsored by the Ministry of Science and Higher Education, Republic of Poland, this sponsorship being herewith gratefully acknowledged. The articles herein provide new developments in several areas related to mathematical modeling, control, fractional calculus, and time scales calculus. All papers included in this volume have passed the standard refereeing process.
