

Control and Cybernetics

vol. **43** (2014) No. 3

CONTENTS

PIOTR FULMAŃSKI AND ANDRZEJ NOWAKOWSKI: Dynamic programming approach to shape optimization	379
SARITA SHARMA, ANURAG JAYSWAL AND SARITA CHOUDHURY: Generalized α -V-univex functions for multiobjective variational control problems	403
EWA M. BEDNARCZUK AND MONIKA SYGA: Minimax theorems for Φ -convex functions with applications	421
MAHMOUD DEGHDAK: Berge equilibrium in discontinuous games	439
NARAYAN SINGH, BINDU VAISH AND SHIV RAJ SINGH: A three level integrated inventory model with time dependent demand and production rate under a trade credit policy for both distributor and retailer	449
STEFKA FIDANOVA, PENCHO MARINOV AND KRASSIMIR ATANASSOV: New evaluations of ant colony optimization start nodes	471
ERRATUM TO THE PAPER: "Application of the simple additive modeling of the first principle model inaccuracies for the offset-free process control" by Jacek Cieczot and Piotr Łaszczyk	487
