

## Control and Cybernetics

vol. **42** (2013) No. 4

Alphabetical list of contributors of volume 43 (2014)  
FIRST AUTHOR, title, issue number, initial page number

---

- N.L.H. ANH & P.Q. KHANH: Calculus and applications of Studniarski's derivatives to sensitivity and implicit function theorems, 33
- W. ASSAWINCHAICHOTE: A novel robust  $\mathcal{H}_\infty$  fuzzy state-feedback control design on nonlinear Markovian jump systems with time-varying delay, 227
- E.M. BEDNARCZUK & M. SYGA: Minimax theorems for  $\Phi$ -convex functions with applications, 421
- M. BORAWSKI: Non-photorealistic rendering with the use of short segments of straight lines in a vector space of increments, 161
- J. CZEZCOT & P. LASZCZYK: Application of the simple additive modeling of the first principle model inaccuracies for the offset-free process control, 261
- M. DEGHDAK: Berge equilibrium in discontinuous games, 439
- H.T.H. DIEM & P.Q. KHANH: Optimality conditions for a class of relaxed quasiconvex minimax problems, 249
- M. DRYL, A.B. MALINOWSKA & D.F.M. TORRES: Corrigendum to "A time-scale variational approach to inflation, unemployment and social loss", 589
- ERRATUM TO THE PAPER: "Application of the simple additive modeling of the first principle model inaccuracies for the offset-free process control" by Jacek Czczot & Piotr Laszczyk, 487
- S. FIDANOVA, P. MARINOV & K. ATANASSOV: New evaluations of ant colony optimization start nodes, 471
- J. FRIEDERICH, G. LEUGERING, & P. STEINMANN: Adaptive finite elements based on sensitivities for topological mesh changes, 279
- P. FULMAŃSKI & A. NOWAKOWSKI: Dynamic programming approach to shape optimization, 379
- V.S. GAVRILOV & M.I. SUMIN: Sequential optimization for semilinear divergent hyperbolic equation with a boundary control and state inequality constraint, 183
- M. GHIYASVAND: A new polynomial-time implementation of the out-of-kilter algorithm using Minty's lemma, 79

- B.-Z. GUO & D.-H. YANG: On existence of shape optimization for a p-Laplacian equation over a class of open domains, 15
- P. JAROSZEK & M. TROJNACKI: Model-based energy efficient global path planning for a four-wheeled mobile robot, 337
- L. KLUKOWSKI: Estimation of the partial order on the basis of pairwise comparisons, 577
- M. KONTAK & J. SZMIDT: Cryptanalysis of the FSR-255 hash function, 365
- A. KORYTOWSKI: A simple proof of the maximum principle with endpoint constraints, 5
- W. KRAJEWSKI & U. VIARO: Fractional order PI controllers for TCP packet flow ensuring given modulus margins, 493
- D. KUCHTA: Time buffers in the open shop problem, 531
- K. MURAWSKI, KRZ. MURAWSKI, & P. STPICZYNSKI: MPI-GPU/CUDA implementation of TVDLF method for the two-dimensional advection equation, 307
- W. ONISZCZUK: Open tandem networks with blocking analysis – two approaches, 111
- G. PAWIŃSKI & K. SAPIECHA: Cost-efficient project management based on critical chain method with partial availability of resources, 95
- A. PIEGAT & M. LANDOWSKI: Specialized, MSE-optimal m-estimators of the rule probability especially suitable for machine learning, 133
- K. PIENKOSZ: Bin packing with restricted item fragmentation, 547
- A. PIÓRKOWSKI, J. WEREWKA & M. BIELECKA: Heuristic algorithms for the optimization of total weighted completion time for asynchronous transmission in a packet data transmission system, 507
- S. SHARMA, A. JAYSWAL & S. CHOUDHURY: Generalized  $\alpha$ -V-univex functions for multiobjective variational control problems, 403
- N. SINGH, B. VAISH & S. RAJ SINGH: A three level integrated inventory model with time dependent demand and production rate under a trade credit policy for both distributor and retailer, 449
- K. SZKATUŁA: Average case analysis of the set packing problem, 557
- P. WOŁOSZKIEWICZ, K. MURAWSKI, Z.E. MUSIELAK & A. MIGNONE: Numerical simulations of Alfvén waves in the solar atmosphere with the PLUTO code, 321
- J. XI, Z. YAO, G. LIU & Y. ZHONG: Robust  $\mathcal{L}_2$  consensus of high-order swarm systems with time-varying delays, 63
