CONTENTS

BHUVAN CHANDRA JOSHI:	351
Duality results on mathematical programs with vanishing constraints involving generalized invex functions	
THANH-HUNG PHAM AND THANH-SANG NGUYEN:	381
On second-order derivatives of the efficient point multifunction in parametric vector optimization problems	
FARGANA ABDULLAYEVA AND ORKHAN VALIKHANLI:	405
A survey on UAVs security issues: attack modeling, 'security aspects, countermeasures, open issues
