

Table of Content

<i>Preface</i> , by Naresh Yadhav	307
<i>A hybridized approach for design and optimization of ORPD under unbalanced conditions</i> , by S. K. Mahammad Shareef and R. Srinivasa Rao	309
<i>Self-adaptive whale optimization for design and modelling of boiler plant</i> , by Sangram Bhagwanrao Savargave and A. M. Deshpande	329
<i>Neural network-based allocation and self-improved fire fly-based optimal sizing of fuel cells</i> , by T. C. Subramanyam, S. S. Tulasi Ram and J. B. V. Subrahmanyam	357
<i>Self-adaptive grey wolf optimization based adaptive fuzzy aided sliding mode control for robotic manipulator</i> , by Sunil C. Kalschetti and S. K. Dixit	383
<i>Impact of network architecture and aggregation process on bandwidth allocation in wireless sensor networks</i> , by Tarek Azizi and Rachid Beghdad	411
<i>A technique for DoS attack detection in e-commerce transactions based on ECC and Optimized Support Vector Neural Network</i> , by Javed R. Shaikh and Georgi Iliev	439
<i>Response surface methodology assisted multi objective optimization of TIG process for 15CDV6 steel</i> , by P. D. Skariya, M. Satheesh and J. Edwin Raja Dhas	465
<i>A study on spinal cord segmentation techniques</i> , by Munavar Jasim and Thomas Brindha	497
Volume table of content	523
List of volume authors	527
List of volume referees	529
