

## Control and Cybernetics

vol. **45** (2016) No. 4

---

### CONTENTS

---

LAURA BITTNER AND HANNO GOTTSCHALK: Optimal reliability for components under thermomechanical cyclic loading	421
AXEL DREVES: A Nash equilibrium approach for multiobjective optimal control problems with elliptic partial differential equations	457
ADAM KORYTOWSKI AND MACIEJ SZYMKAT: On convergence of the Monotone Structural Evolution	483
MAREK ANTOSIEWICZ: Solving a large heterogeneous-agent general equilibrium model with labour market frictions	513
LESZEK S. ZAREMBA AND GRZEGORZ RZĄDKOWSKI: Determination of continuous shifts in the term structure of interest rates against which a bond portfolio is immunized	525
KAROL GRUDZIŃSKI: The PM-M prototype selection system	539
Table of contents of volume 45 (2016)	563
Alphabetical list of contributors of volume 45 (2016)	567
