

Control and Cybernetics

vol. **46** (2017) No. 3

CONTENTS

GÜNTER LEUGERING, ALEXANDER MARTIN, MARTIN SCHMIDT AND MATHIAS SIRVEN: Nonoverlapping domain decomposition for optimal control prob- lems governed by semilinear models for gas flow in networks	191
MOHAMMAD JAVAD MAHMOODABADI, MILAD TAHERKHORSANDI AND MOHSEN TALEBPOUR: Adaptive robust PID sliding control of a liquid level system based on multi-objective genetic algorithm optimization	227
MOHAMED AHMED FKIRIN AND RADWA HASSAN ZEDAN: Identification of water treatment plant based on feed-forward neu- ral network	247
PAWEŁ D. DOMAŃSKI: Non-Gaussian statistical measures of control performance	259
LESZEK KNOPIK: A note on the failure rate of the mixture of an exponential dis- tribution and a distribution with increasing quadratic failure rate function	291
