
CONTENTS

CALL FOR PAPERS FOR A SPECIAL ISSUE OF HOMO OECONOMIUS: "GAMING, SIMULATION & SIMULATED GAMIFICATION"	325
KRZYSZTOF BARTECKI: Transfer function-based impulse response analysis for a class of hyperbolic systems of balance laws	327
MOHAMED S. BOUDELLOUA: Computation of a canonical form for neutral delay-differential sys- tems	357
TOMÁS ARRIBAS, SEBASTIÁN SÁNCHEZ AND MARIANO GÓMEZ PLAZA: Optimal control of dynamic systems using a new adjoining cell mapping method with reinforcement learning	369
YUNG-FU HUANG, HUNG-FU HUANG AND JINN-TSAIR TENG: A more direct demonstration on the EOQ model under retailer partial trade credit policy in supply chain	389
YOSHIKI UEMURA: Method of identifying a type-2 membership function and applica- tion to decision-making problem	399
YOSHIKI UEMURA: Fuzzy decision making under transition from silence to confusion	407
YOSHIKI UEMURA: Application of fuzzy decision making to the smoking problem	413
